

# **Jodie Wright for Mature Students' Officer**

For this year's elections I would love to be re-elected as your mature students officer. I promise to commit to making freshers fair more family friendly. I aim to introduce more activities/socials aimed at bringing mature students together no matter what their situation is, and to gather the views from students on what they want from their university experience, not just from their chosen course, but for their experience as a whole. I will be staying environmentally friendly and not producing any physical copies of campaign posters or any surveys I send out later in the year to reduce paper waste. Vote for me and I will make sure your voice is heard :)
