

Louise Blundy for Faculty Rep – Arts, Science and Technology

My name is Louise Blundy and I am currently in the second year of the BA Hons Criminology and Criminal Justice degree course at Glyndwr. I am thoroughly enjoying the course and the opportunities for development through volunteering both within and outside the criminal justice system.

I feel fortunate to be able to access this opportunity to study at Glyndwr having decided to travel rather than study after leaving school, and am hoping to make the most of my time here to access a new and exciting career in the future. Outside of the University I participate in many roles, both voluntarily and in employment, that involve listening, empathy and being supportive to others and hope that these skills can be further developed should I be successful in becoming an officer representing the Faculty of Social and Life Sciences.
