

Harsewak Singh

My name is HARSEWAK SINGH, and I am nominating myself for the position of Mature Student / Parent / Carer Officer. As someone who understands the realities of balancing studies with family, work, and caring responsibilities, I know how challenging yet rewarding this journey can be.

Mature students, parents, and carers bring immense resilience, dedication, and life experience to our university community. However, we also face unique barriers — from time pressures and financial strain to limited access to tailored support. I am running for this position to ensure that our challenges are recognised, our voices amplified, and our contributions celebrated.

If elected, I will work tirelessly to:

Advocate for improved flexibility and accessibility, including better timetabling, online options, and childcare support.

Create a supportive community network where mature students, parents, and carers can connect, share experiences, and access resources.

Collaborate with the Students' Union and the University to ensure our needs are reflected in decisions that affect us.

I believe that representation means action — not just being heard, but being understood and supported. Together, we can make our university a place where every student, regardless of age or circumstance, has the opportunity to thrive.

Vote for HARSEWAK SINGH — a voice that understands, represents, and stands up for mature students, parents, and carers.
