

Otu Jacob

Hello everyone,

My name is Otu Jacob, and I'm putting myself forward for the position of Postgraduate Officer.

I'm deeply passionate about representing the voices of postgraduate students and ensuring that our needs, challenges, and ideas are heard. My goal is to create real, meaningful changes that improve our academic, social, and personal experiences.

If elected, I will work to build strong partnerships with external organizations and industry experts to open up opportunities such as free CV reviews, live interview sessions, and on-the-spot recruitment for placements and internships. We've all come from far and wide to earn a UK degree, let's also gain valuable UK experience along the way.

I understand the unique pressures postgraduate students face, and I believe every one of us deserves to feel supported, included, and empowered. I will focus on improving access to resources, creating networking opportunities, and enhancing wellbeing and support services.

I'm an active listener, a confident communicator, and a team player who enjoys bringing people together to achieve shared goals. My approachable nature helps me connect with others and build trust within diverse groups.

In my previous roles, I've led projects, introduced new initiatives, and supported my teams to deliver positive results. I believe in action, not just words and I'm committed to working hard for all postgraduate students.

Thank you for your support.

Vote Otu Jacob for Postgraduate Officer!
