

Santhosh Natakam

Hello everyone,

My name is Santhosh Natakam, and I am standing for the position of Mature Student / Parent / Carer Officer.

I bring experience from different fields, including sales, marketing, career guidance, and technology. With this background, I can understand a wide range of perspectives and guide students in ways that are practical and suitable for their needs.

I believe in building strong connections and a supportive network that benefits everyone. My friendly and approachable nature helps me work with people easily, and I am always ready to listen, share ideas, and suggest opportunities that can make a difference.

If elected, I will dedicate my full effort to making sure that mature students, parents, and carers feel represented, included, and supported throughout their journey at the University.
