

Venkatesh Pitla

I am standing for the role of Partner Institutions Officer because I believe every student deserves to feel represented, supported, and heard—no matter which campus or partner institution they belong to.

I want to strengthen the bridge between the Student Union and partner institution students, ensuring that everyone's voice carries equal weight.

I am passionate about student welfare and committed to addressing the unique challenges faced by students across partner institutions.

What I Will Do

Better Communication: Create open and accessible channels for students to share feedback, concerns, and ideas.

Equal Opportunities: Advocate for equal access to resources, activities, and academic support for all partner institution students.

Student Experience: Work to organize events, workshops, and networking opportunities that connect partner institution students with the wider university community.

Support & Representation: Ensure that issues raised by partner institution students are brought to the Union and acted upon promptly.
