

Tegan Brierley-Sollis for Postgraduate Officer

Who am I?

Hello my name is Tegan Brierley-Sollis and I started my postgraduate studies in 2018. I was a course rep in my first year of my undergraduate degree and I was student representative on the Learning, Teaching and Quality Committee at Glyndwr University for four years. In 2017 I joined the Academic Development Team which runs alongside the LTQC focusing on assessments and feedback for students. I established the WGU Criminology Society and held presidency for 18 months. During the first year of my postgraduate studies, I was the rep for the Faculty of Social and Life sciences which I thoroughly enjoyed. This role involved me attending Faculty Board Meetings, Student Council Meetings and making myself available for students to approach me with any feedback. I was keen to develop this role as much as possible and provide the best service for the students within the faculty of social and life sciences.

Why me?

As a currently active and engaged student and previous rep both at programme level and strategic level, I feel that I have gathered the appropriate experience to represent you as a postgraduate student and your academic life. I believe that I can make positive gains for postgraduate students and allow your voices to be heard at student council meetings and across the university. I aim to take forward each issue/comment in order to make improvements and this includes engaging with the postgraduate student body to ensure that I am capturing as many voices as possible. It is really important to also highlight the positives which students recognize so if I am elected as the Postgraduate Officer I will make sure this is included in any feedback. I believe that achievements should be celebrated and I will be committed to ensuring that good practice is shared and that Postgraduate students feel part of the Glyndwr community.

Please vote for me 😊
